About Me

I intend to build a career with an organization where I can explore my knowledge and skills and learn new things while also supporting the company's growth.

Project Work

Title: Department Details Management System

Designed the database schema to efficiently track and record complete details about the department.

Collaborated with a team of three to create a database management system for data entry and reporting.

Front End: HTML, CSS & JS

Back End: PHP & MySQL

Duration: 3 Months

Key responsibilities:

- Analyze current and past records of the department.
- Creation of the front end for interaction.
- Creation of the database
- Connecting the front and back end with help of PHP language.

co-curricular

INTERNSHIP in NITHRA APPS India Pvt. Ltd. Tiruchengode during December 2021.

Hobbies

- Reading books
- Listening to Music
